CLIMBING BELLE SIEBRECHT.
Identical with Belle Siebrecht, except that it is a vigorous climber. Its delicate, bright pink flowers measure five to six inches in diameter. A gem. $1.50 per dozen.

DUCHESS D’ARENBERG.
This Rose resembles that charming variety Grace Darling, having the same delicate shades, but with the advantage over that variety in its being a more vigorous grower. $1.00 per dozen.

GARDENIA.
A novelty which must not be confused with Manda’s Hybrid Wichuraiana. This is one of the prettiest and daintiest of garden Roses. It is fine in foliage; very free in bloom. Its buds are slender and pointed, as they open showing a fresh pink center surrounded by snowy white. The open flower recurs its petals, which are of heavy texture, and its form is like a Cape Jasmine, hence its name. The open flower is the purest paper white. A free grower and very free in bloom. $1.00 per dozen.

JOHANNA WESSENHOF.
This is the finest grand bedding yellow Rose. It is a deep golden yellow, and is such a grand bedding Rose that it is already called by some the Bedding Perle. It is certainly fine. $2.00 per dozen.

META.
This is a grand, high-colored variety. It has all the different shades of color, with a few additions, that Luciole has. Coppery yellow, suffused with pink and crimson. $1.00 per dozen.

MADAME E. DURANTHIN.
This is one of the most unique colored Roses in existence. It combines the delicate shades of Princess Beatrice with the more ruddy coloring of Madame Margotin. This is indeed a beauty. $1.50 per dozen.

MADAME BOULET.
A very delicate pink-colored Rose. Somewhat of the Testout type. $1.09 per dozen.
MADAME HUSSON.
A light-colored Rose with yellow center, like Madame Caroline Testout, only deeper and richer. **$1.00 per dozen.**

PIERRE MIGNON.
A very delicate shade of light pink. Has decided merits. **$1.00 per dozen.**

MARQUIS LITTA, or No. 19.
The Grandest Rose in Our Whole Book.
This is a new French forcing Rose. It is by all odds the very best new Rose that has been introduced in years. It resembles it color American Beauty. Buds and flowers of the largest size. It is a strong, vigorous grower producing its handsome buds and flowers on long stems. It forces equal to Bride or Bridesmaid. Never comes "off color" or with misshaped buds. This is the nearest approach to the ideal forcing Rose. Don't fail to try this grand variety. **$2.50 per dozen.**

PSYCHE, THE NEW RAMBLER ROSE.
Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose Golden Fairy. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are two to two and a half inches across when fully expanded. The color is white, suffused with salmon rose and pink; with yellow base to the petals. A real companion to Cluson Rambler. The horticultural press of England gives it very flattering comment as described at the various exhibitions. **$1.00 per dozen.**

QUEEN OLGA OF GREECE.
This Rose comes to us very highly praised. So far we have failed to detect what these merits are. It may be grown with a longer acquaintance. The color is light pink. **$1.00 per doz.**

SOUV. DE MD. EUGENE COUVIN.
We think highly of this Rose. It is a fine grower and free bloomer. Flowers when open flat. It combines shades of white and yellow in pleasing harmony, with center of flower deeper yellow. Very desirable. **$1.50 per dozen.**

SUNRISE.
The most gorgeous Rose of its class yet introduced. This has made a sensation in England and taken first honors wherever shown. In close bud form it shows the high, brilliant colors seen only in the Austrian Copper, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow deepening to a rich sunburst, all the buds show orange and copper, the inside of the petals golden yellow. The open Rose is large and most beautiful. The color of bud and of bloom is a perfect golden form. The foliage is glossy and thick, the new growths being green and the old ones a rich chestnut brown. The crust and color of bud, its freedom of growth and bloom will give sunrise a high place among forcing Roses. A novelty is earnestly wished for bloomers and is of the highest quality. **50 cents each; $3.00 per dozen.**

MRS. MAWLEY.
This grand variety embodies so many good qualities that it is difficult to describe it. We could say no more in its praise than that it is like Madame Brouche, only several shades lighter in color. **$1.00 per dozen.**

**Roses Our Specialty.**

SOME OF THE NEWER ROSES.

Baldwin.

ANTOINE RIVOIRE.
A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color rose flesh, on a yellow ground, shaded with a border of carmine. Flowers five inches in diameter. A remarkable variety of great worth. **60 cents per dozen.**

ADMARIL DEWEY.
In color this is among the most beautiful of pink Roses, a delicate daybreak blush, clear and distinct and very captivating, nothing weak or waxy in color. It is a sport from Madame Caroline Testout, is more vigorous in habit and a very free bloomer. Like Testout, the flowers are very perfect in form, a little lacking in fullness when fully expanded, forces finely and is very fragrant; a fine cold weather Rose of enormous size. **$1.00 per dozen; $6.00 per hundred.**

BARDOU JOB. The Saucer Rose.
This is not, strictly speaking, a new Rose, but its merits have only been discovered in the past year. It is scarce, and will be so for some time to come. It is a semi-climbing habit, being quite vigorous and strong. The foliage is large and leathery. The flowers are very large, and resemble a saucer in shape, semidouble. The color is the deepest, richest crimson of all Roses. We know of nothing in the Rose family so rich in color. A well grown bunch of these Roses will startle you. **60 cents per dozen.**

CLIMBING PAUL NEYRON
(Madame Wagron.)—A grand new Rose. Paul Neyron has always been known as the largest Rose extent. In Climbing Paul Neyron we have this large size, coupled with its bright, fresh pink color that no Rose excels. And it is also a true perpetual bloomer. The finest of all climbers. This Rose is a wonder. Be sure to try it. **60 cents per dozen; $1.00 per hundred.**

BEAUTE INCONSTANTE.
A Most Wonderful Rose.
This new ever-blooming Rose from France is very remarkable in many respects, but the most notable is its ability to change its color. We have seen bunches of this wonderful variety bearing at the same time coppery yellow, deep rose, blush pink, mottled yellow and apricot, light and dark crimson. These beautiful colors will sometimes be mottled in a single flower. A plant of this beautiful Rose when in full bloom presents a sight that is at once novel and pleasing. The buds and flowers are large, delightfully fragrant, and, as may be imagined, are exceptionally beautiful. It is a Tea Rose, and is, therefore, a constant bloomer. Its fragrance is delicious, and its being a vigorous grower makes it valuable for garden culture. This Rose produces a sensation wherever seen, and will, without doubt, hold the list as a charming novelty for years to come. **60 cents per dozen; $1.00 per hundred.**

BALDWIN.
One of the most remarkable Roses of recent date, as strong growing as the best of the Hybrid Perpetuals, with large, handsome foliage, flowers of perfect form and largest size, which is equalled in profusion by no other Rose of its size that we have seen. The color is bright, glowing carmine, and if this Rose were constant in shade it would outrank all others of its color. Its one and only defect is that at times it comes off color. The bud is long and elegantly pointed; it is as sweet as a June Rose. **50 cents per dozen; $1.00 per hundred.**
CORONET. The Sweetest, Largest, and Freest-Blooming Hybrid Tea Rose in Cultivation.

It is a cross between that superb variety Paul Neyron and Bon Silene, two grand old favorites. Coronet is a true ever-blooming Hybrid Tea, identical in form and size with Paul Neyron. No description or illustration can do justice to the remarkable beauty and splendor of its flowers. They are grand in every way. From the time the plant is four inches in height it blooms steadily, bearing in unbroken continuity, on good, stiff stems, magnificent large flowers that are perfect; the fragrance is strong, and the color is absolutely unlike any Rose we know. In the bud the color is deep, rich carmine, which, as the flowers open, lightens to a soft, clear pink, with a magnificent, velvety texture. It is a very strong, vigorous plant. The fragrances is simply delicious. In flower and foliage it resembles Paul Neyron; while in vigor of growth the Bon Silene blood is shown. It is a strong, healthy grower, forming a compact bush. In the open ground, where it is hardy, it does splendidly, commencing to bloom early in the season and continuing until severe freezing weather. Slight protection during Winter will be beneficial. Probably the most valuable and satisfactory Rose for general cultivation sent out for many years. 60 cents per dozen; $1.00 per hundred.

THE BURBANK ROSE. A Perfectly Hardy, New, Ever-Blooming Rose.

This lovely Rose was raised by Mr. Luther Burbank of California, known the world over as the "Wizard of Horticulture," and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he was willing should bear his name. The Rose is the only rival that the famous variety Crimson Climber has of ours to offer in points of beauty and perfection. It is perfectly adapted for both outdoor planting and in pots in the green house. It is a strong, vigorous grower, making well rounded, bushy plants. The Burbank Rose is perfectly hardy, and will stand our severe winter weather. This rose has a decided point in its favor over so many of our lovely Roses, they being too tender to withstand the extreme cold. The Burbank can be planted anywhere. The Burbank is without doubt the finest and most perfect Rose in cultivation. It commences to bloom when only a few inches high, and blooms throughout the season until stopped by freezing weather. The flowers are double, three inches across, the whole flower is most pleasing to the eye, and the blossoms are delightful fragrant. 50 cents per dozen; $3.00 per hundred.

CLARA WATSON.

A free-blooming Tea Rose of English origin with many distinct features. The flowers are very graceful, resembling Bridesmaid in form, and are produced in remarkable profusion. For freedom of bloom this variety is especially valuable. The buds are very beautiful, and are supported on long stems, making it desirable for cutting. The color is salmon pink, very difficult to describe. Will take a place among the best Roses. 50 cents per dozen; $3.00 per hundred.

CARMINE PILLAR. (The Butterfly Rose.)

Hardy climber. The flower is from three and a half to four inches across, of the brightest possible rose carmine, and produced very abundantly. The display lasts for several weeks. Quite hardy. One of the very finest of ornamental shrubby Roses, as of the freest growth. It is so dainty and graceful as to be given the name of the Butterfly Rose. 50 cents per dozen; $3.00 per hundred.

New Hardy, CLIMBING Crimson Rose, WOOTTON.

To our mind this is one of the best Roses in this book, for these reasons: It is hardy, has no weak spots, grows with wonderful vigor, blooms continually throughout the growing season, producing flowers that are nothing less than superb, both in beauty and in fragrance. These we think are the points that make a good Rose, and in this variety we have one. It is a sport from that famous Rose, Souv. de Wootton, and is identical with it except that it is a strong, rampant climber, growing in one season to a height of 10 to 15 feet, and producing in wonderful profusion its superbly formed flowers, which are bright magenta red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leather petals, and deliciously scented. Makes beautiful buds. As an outdoor climbing Rose, it will take front rank because of its hardness, strong growth and freedom of bloom. A well developed bush covered with finely formed flowers is beautiful beyond anything we have ever seen. Truly this is magnificent and valuable new Rose. 60 cents per dozen; $1.00 per hundred.
Grand New Velvety Red Rose,  
CLIMBING METEOR.  

The brightest colored of all Roses. It has been called a Perpetual Blooming, Climbing General Jacquemont. All who know “Gen. Jack” will call to mind its beautiful, high-colored, rich, velvety red buds and flowers. Climbing Meteor is the same of all red Climbers sold. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season. In bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth, and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up to the veranda or around windows, where its great beauty will show up to advantage. Don’t fail to plant one of these marvelous Meteor, 50 cents per dozen; $3.50 per hundred.

EMpress of CHINA.  
The Apple Blossom Rose.  

This is a new, hardy climber that possesses great merit. It is a strong, rampant grower, and a very free bloomer. Flowers of good size, from pointed buds, soft red, turning lighter as it develops; blooms from May to December in the open ground. It will, in our estimation, become a standard variety for florists’ use to bloom in pots for market purposes, as it is such a fine and persistent bloomer. Introduced from China. 50 cents per dozen; $8.50 per hundred.

Enchantress.  

This variety belongs among the leaders. It blooms with astonishing freedom, bearing its large, globular, double flowers in immense clusters. It is as free blooming as any Rose in our collection. The color is creamy white, slightly tinted with buff in the center. Of vigorous growth, fine foliage and highly valuable, both in pots for late Autumn and Winter blooming and as a filling plant for general planting in open ground during the Summer. 50 cents per dozen; $2.50 per hundred.

Golden Gate.  
The Great Forcing Rose.  

This variety, while not new, has recently attracted considerable attention, and is considered by many of our most valuable double Winter-flowering Roses now grown. It does best in a temperature that grows fine April and May. Under favorable conditions its shape closes are often as large as American Beauty, and are borne on strong, heavy canes, stiff as reeds. When well grown it of its exquisite color—shell pink, shading to creamy flesh on outer petals. This Rose has been grown quite largely in the vicinity of Washington, D.C., where it has been received with great favor. It is a favorite with both grower and retailer, and commands the highest price of any Tea Rose. In bloom all year. 50 cents per dozen; $3.00 per hundred.

Gruss an Teplitz.  

As a bedding Rose this is one of the finest and most useful varieties we ever sent out. Many of our customers who bought it past Spring are realizing its value and singing its praises. It will take rank with Hermosa or Soupert. The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant. The freest grower and the most profuse bloomers of any ever-blooming Rose. The richness of color produced is wonderful, and the foliage is extremely beautiful, all the young growth being a bronzy plum color. A queen among scarlet bedding. It is a perfect sheet of richest crimson scarlet all Summer. It will undoubtedly supersede Agrippina, Queen’s Scarlet, and others of this class. 60 cents per dozen; $4.00 per hundred.

General Robert E. Lee.  

This is the first Rose that we have introduced, and we are sure it will please all who try it. It is in the true orange yellow, after the style of Ma Capucine, only richer and better. It is a good grower, has elongated, long buds borne off in large stems, and will produce more buds than any Rose we know of. It color is much larger and richer in color than any other, which will make it a useful Rose for Winter forcing. The color is so peculiar and rich that it attracts attention cannot fail to be seen. Try it. 50 cents per dozen; $2.50 per hundred.

Helene.  
The New Rambler.

Color such a free and persistent bloomer, yellowish white at base of petals. Author pure yellow and numerous. Habit full as strong as Crimson Rambler, but more graceful. Foliage like Crimson Rambler. One of the most beautiful of Roses. Color hard to describe, but perfection in tint. It is a sport from Fer de L’Etampes, and is a lovely mingling of pink and coppery buff. A warm, bright color, but lacking the coppery red found in Sunset. A very distinct and valuable variety. The finest of the Ferre family. Foliage as handsome as the flower. Fine for forcing. 50 cents per dozen; $6.00 per hundred.

Mrs. Robt Peary.  

Or Climbing Kaiserin.—This is without doubt the grandest of all white climbing Roses. It is the first and only truly white climbing Rose, and as such meets a demand that has never before been supplied. Small plants bloom continuously the first season, but as the Kaiserin Augusta Victoria, does. It is as hardy as any Hybrid Perpetual or Rose Rose, and will withstand, unprotected, the most severe winters. It is a rapid grower, without a weak spot, growing to perfection in open ground and throwing up handsome shoots ten to fifteen feet high in a single season. The flowers are something grand. Resembles that grand old Rose "Malmaison" in shape and fullness. 50 cents per dozen; $3.00 per hundred.

LEONIE OSTERIETH, OR WHITE SOUPERT.
We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of good size, the flower full and double, and deliciously fragrant. Pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the Polyantha. 50 cents per dozen; $3.50 per hundred.

MADAME DE WATTEVILLE.
Color a beautiful creamy yellow, tinged with rosy blush; large, shell-like petals, having bright crimson-shaded border. 50 cents per dozen; $3.00 per hundred.

MADAME A. VEYSET.
STRIPED LA FRANCE.
A magnificent new Rose, identical in every respect with its parent, La France, except in two particulars— it is much stronger in growth, and the flowers are beautifully striped and shaded a delicate white. The coloring is exquisite, and we think this Rose will please cut-flower buyers. It forces freely, and produces magnificent large buds and flowers. 50 cents per dozen; $3.50 per hundred.

MADAME DE VATRY.
One of the brightest roses. We consider this splendid variety to be one of the very best and most satisfactory Roses for general planting, especially outdoors. The people in the South fairly rave over its great beauty. In New Orleans it is a favorite. Makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The coloring is a reverse tone of silvery peach, reminds one of the delicate hues seen on the inside of the fairest deep sea shells—rosy flesh bathed in golden amber, broad, shell-like petals, bright and beautiful. In every way a fine Rose. 50 cents per dozen; $3.50 per hundred.

MADAME ELIE LAMBERT.
The color is somewhat in the way of Madame de Watteville, but deeper. Rich creamy white, faintly tinted with pale golden yellow, and exquisitely bordered and shaded with soft rosy flesh, exceedingly beautiful and very sweet, petals large and of good substance, constant and profuse bloomer. Most beautiful, both in bud and flower, which is deep golden yellow. In fact the deepest yellow in color of any Rose we grow. The foliage is very bright. This is a perfect, magnificent size and color. We grow of this variety alone over fifty thousand, which is evidence of how we prize it. Altogether a grand rose, and always in bloom. 50 cents per dozen; $3.50 per hundred.

Here we have a beauty indeed. The flowers have a great depth and substance, and are of fine globular form, with broad, thick petals and large, finely shaped buds. The color is a bright carmine at the edge of the petals, soon graduating into light rose and becoming lost in the pale yellow of the center. **SNOWFLAKE, Marie Lambert.**

This is a lovely white Rose, a pure Tea, but a foreign seedling, the few blooming white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every quality of a pot Rose. We counted on one plant one hundred and four hundred buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per hundred buds. Not only will it cover twice and three times the space in a funeral design, for instance, that a Carnation covers, but it will give greater superior results. Try it. **50 cents per dozen; $3.50 per hundred.**

**SUNSET.**

The color is a remarkable shade of rich, golden amber, elegantly tinged and shaded with dark, russet copper, intensely beautiful, and resembling in color a splendid "afterglow." **50 cents per dozen; $3.00 per hundred.**

**SOUVENIR DE WOOTTON.**

Color velvety red, equal to Jacquemont. It is a double Rose, and is good in bud, half open, or fully expanded. Full open flowers, frequently six inches in diameter. A most excellent Rose. **50 cents per dozen; $3.00 per hundred.**

**SOUVENIR D'UN AMI.**

A fine, delicate Rose, shaded salmon. One of the best pink Roses, and a good variety to force. **50 cents per dozen; $3.50 per hundred.**

**SOUVENIR DE LA MALMAISON.**

Always in demand. Everyone's favorite, and never enough to go around. Fine for private grounds, cemeteries and parks. **50 cents per dozen; $3.00 per hundred.**

Viscountess Folkstone.

The flower is delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it is like a fine white Peony, but without a suggestion of stiffness. 50 cents per dozen; $3.50 per hundred.

WHITE PERLE DES JARDINS.

We think that every lover of white Tea Roses will be delighted with White Perle. It will be found totally distinct from Bride or any other white Rose. A great Rose. 50 cents per dozen; $3.00 per hundred.

CRIMSON RAMBLER.
Imported from Japan, the land of wonders. It is a rapid grower, and very quickly makes heavy canes of great length, covered with peculiar, shining golden foliage. Blooms are produced in great bunches, and are of a most peculiar and lovely shade of crimson. It has proved perfectly hardy even in our trying Ohio climate. A bed of this pegged down and requiring little attention would be very useful to the general flowerist at blooming time. It also makes a fine pot plant, treated and brought on like the early-blooming Hybrid Perpetuals, and forms a perfect bouquet of bloom. This is without question the handsomest plant of any description for Easter blooming. Grow in the field one or two years, the latter age is the best, dig and pot and keep cool at night for about six weeks, until root action is active, then gradually increase temperature. This Rose produces, from the very pot to its topmost branches, huge bunches of from fifty to two hundred blooms in a cluster, and is a sight not soon to be forgotten. 50 cents per dozen; $2.50 per hundred.

CLIMBING PEARL OF THE GARDENS.
Few Roses remain a hold in popular favor and are so highly prized by the professional and amateur Rose growers alike as the Pearl of the Gardens. It thrives well in the open air, blooming freely. Its large, full, well-formed golden yellow flowers, without any perceptible difference between the two it is only that the Climbing Pearl of the Gardens is even more vigorous and floriferous than the bush form. Climbing Pearl of the Gardens will supersede Marechal Nié, as the buds and flowers are so large and the color so brilliant. It is hardy in the South. A most remarkable Rose, and without doubt the best yellow Rose ever seen. 50c per doz; $3.00 per hundred.

Climbing Pearl of the Gardens.
CLIMBING LA FRANCE.

Bitherto the Hardy Climbing Roses have been almost totally devoid of perfume, and none of them have that form and substance deemed requisite in a high-class Rose. With the advent of the Climbing La France these objections vanish, for it excels even its parent (La France) in size and quality of flower; it retains the climber's habit and yields that exquisite fragrance which has made La France the favorite it is. Small plants set out June 15th had attained a growth of fifteen feet by October 15th, a growth unsurpassed by any Climbing Rose on our grounds. The Climbing La France is equally as hardy as its parent, and so may be safely planted in open ground even in Northern latitudes. It is a true, ever-blooming, hardy climbing Rose, which will make it equally valuable for the North and South. Be sure to try it. 50 cents per dozen; $3.00 per hundred.

Yellow Rambler, Aglaia.

Rosarians have been for many years crossing or hybridizing various Roses with a view to obtaining a hardy yellow climbing Rose; but the combination of a true climbing habit and yellow coloring with hardiness was one that seemed impossible to obtain, and was almost despaired of. The Yellow Ramblers have been found to succeed splendidly, without protection, a continued temperature of from zero to two degrees below, which proved to be far harder than any other yellow climbing Rose yet intro- duced, and we believe that by laying the plants down in the Winter it can be successfully grown in nearly all the northern parts of the United States; in fact, anywhere that other Roses succeed at all well. Did we say yet another thing? Of course the Rose we think this would be sufficient to establish its value, for what lover of Roses in the North has not been frightened by the climate which nearly deprives his garden of the most attractive color of all—yellow. The flowers are borne in immense clus- ters, after the same manner as many as one hundred and fifty blooms in a bunch. The color is a decided yellow. $3.50 per hundred.

ZELIA PRADLE.

Vigorous climber. Has lovely pure white buds. Flowers are full and sweet. 50 cents per dozen; $3.00 per hundred.

ROSSA WICHURAIANA.

The Single White Memorial, or Japanese Trailing Rose.—This is a new and distinct class of trailing Rose, making a perfect carpet with its foliage habit. It is very useful for permanent planting in cemetery plots, or on slopes or rockeries, as it is entirely hardy and produces its charming white flowers in the greatest profusion during the entire summer. This Rose has come to stay, and is, without question, a decided acquisition. There are several colors distinct from this that will be offered the coming season. Try this Rose.

MRS. LOVETT.

A double bright pink, form of Rosa Wichuraiiana. In every respect it is a true Memorial Rose, save the flowers. In habit of growth and foliage, hardness and abundance of bloom, it is identical with its parent, but its Rosas are double, two and a half inches in diameter, of bright, rosy pink color.

Manda's New Evergreen Memorial Roses:

GARDENIA.

Strong grower with large, green foliage, flowers produced singly on stems one-half to one foot long. In bud hardly distinguishable from Perle des Jardins, bright yellow, and when open cream color, three to three and one-half inches in diameter, incurring towards evening to perfect imitation of a Gardenia or Cape Jasmine as to shape and color, hence its name. Flowers delightfully fragrant and produced freely. A grand Rose for any purpose.

EVERGREEN GEM.

The most wonderful grower of the set. Not only evergreen, but growing during mild weather in Winter. Stems long-branching, rich, bronze color, closely matted. Flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful, sweetish fragrance. This will be found most valuable for landscape work, as well as for cut-flower purposes. We consider this the best plant of the set.

Hybrid Wichuraiana Memorial Roses.—What Mr. Manda says: "The most remarkable achievement and improvement of a new and distinct type of Hardy Roses that has been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of two hundred and forty square feet with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright, glossy foliage and showy, fragrant flowers. The same plant has made one hundred and eight new growths of remarkable strength during the summer. The foliage of all is leathery in texture, shining, and not only proof against insects, but evergreen—that is, keeping the foliage all winter—a characteristic in Roses never before obtained. The flowers are produced most profusely, are all of large size, very fragrant, and can be easily used for cut-flower purposes, as much as any greenhouse Tea Rose, especially when in bud. The use of these Roses will be unlimited—for trailing or covering ground where nothing else would grow, to cover roots, stumps and stems of trees, walls and trellises, for cut-flower purposes, and also for forcing as pot plants during Spring, especially for
GENERAL COLLECTION OF PLANTS.

Asparagus Sprengeri.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes, or for planting in suspended baskets. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any situation. 50 cents per dozen, $3.50 per hundred.

Asparagus Plumosus Nanus.

The Climbing Lace Fern.—This graceful climber has, to a great extent, taken the place of the once popular Smilax in all fine decorations. It possesses the advantage of being much more graceful in foliage being finer than that of the most desirable Fern, and will last for weeks after being cut, the whole plant being of a bright, cheerful green. It is an excellent house plant, succeeding under almost any condition. 50 cents per dozen; $3.50 per hundred.

Acalypha Sanderi.

This plant goes under various names, such as "Cheville Plant," "Philippine Medusa," "Comet Plant," "Dewey's Favorite Flower," "Bloody Cat Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large, dark green leaves from each axil of which rose-like spikes, from one to two feet long and nearly one inch thick, are gracefully suspended as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) is fairly well shown. The plant is a flower the year round, and is as easily grown as a Coleus, simply requiring a warm temperature to develop its full beauty. 50 cents per dozen; $3.00 per hundred.

Acalypha Triumphans.

This is a very ornamental bedding plant, the foliage being bronze, crimson and green. Very beautiful. Grows rapidly. 50 cents per dozen; $3.00 per hundred.

A charming variety. Dark green foliage, with a distinct margin on the edge of each leaf of bright pink. Lovely. 50 cents per dozen; $3.00 per hundred.

Araucaria Exelsa.

Asiatic or Norfolk Island Pine.—Various names have been suggested for this grand plant to properly convey the mind the appearance of. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star; but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm. Pine plants, four-inch pots, ten to twelve inches high, three to four tiers of leaves, $1.00 each; $9.00 per dozen.

Aloysia Citriodora.

Lemon Verbena.—This plant has the most fragrant foliage of any plant grown. The fragrance is that of the Lemon. One plant will scent a whole yard. Grows rapidly. Exquisite. 35 cents per dozen; $2.00 per hundred.

Ampelopsis Veitchii.

Boston Ivy.—A beautiful, hardy climbing plant of Japanese origin. This is one of the finest climbers we know for covering walls, it clings firmly to the smoothest surface, covering it with overlapping leaves, which form a perfect mass of foliage. The color is a fresh, deep green in Summer, changing to the brilliant shades of crimson and yellow in Autumn. It is quite hardy, and becomes more popular every year. 50 cents per dozen; $3.00 per hundred.

We have some extra strong field grown plants of Ampelopsis Veitchii. Three years old, eight to ten feet long, $1.75 per dozen; $13.00 per hundred.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these ponderous Lemons were growing at one time.

Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit.

Moon Flowers.

The True Ever-blooming Moon Flower, Ipomoea Grandiflora.—We have the true variety that blooms constantly. If planted out in rich ground, in a situation where it has full exposure to the sun, it will attain a height (if given a wire or string to twine on) of forty feet by October 15th, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich, Jasmine-like odor at night. The "Moon Flower" is a tender plant, but it can easily be kept in the house over Winter. It roots so easily from slips that no attempt should be made to lift large plants. The true "Moon Flower," 50 cents per dozen; $3.00 per hundred.

Moon Flower, Learit, or Heavenly Blue.—This makes a splendid companion plant to the white "Moon Flower." It is equally rapid in growth and as fine blooming as the white variety, although blooming in the morning and dull days. The white flowers, although small, are produced in great profusion, and emit the most pleasing fragrance. It has been well said that each individual bloom has more sweetness than the most fragrant Lily. The blooming period begins in the Fall and lasts for several months. It is of easy culture, and especially desirable as a window plant. $2.00 per dozen.

ORANGE KUMQUAT, OR KIN KAN.
This unique and wonderfully beautiful orange is a native of Japan, where it is known as the Kin Kan, which means gold orange; its other name—Kumquat—is Chinese for the same meaning. It bears in the most marvelously profuse little miniature oranges, no larger than a damson plum, of a rich golden color and glistering amid the dark foliage like burnished gold. The whole fruit, rind and all, is eaten, and people become very fond of them. The rind is sweet and the pulp agreeable and acid, making a pleasant combination. They are also delicious preserved and crystallized. The plants begin to bear as soon as they have wood enough to hold the fruit, and are loaded with fruit and flowers every year. We have had bushes only twenty inches high carrying upward of one hundred oranges. We have put in cuttings in the Fall that started growth the following March, bloomed and set fruit in June, which ripened in the Fall—only one year from the time the cuttings were propagated! A small tree, not more than six feet high and five feet through, bore over two thousand fruits, and this is by no means an extraordinary yield for this sort. The branches are slender, without thorns, the leaves narrow and oval, and the plant assumes a fine shape. As a pot plant it will create a sensation everywhere grown. As a window plant for the North as well as for gardens in the Orange region, the Kin Kan is one of the handsomest and most valuable ornamentals. Diminutive trees in pots are loaded with fruit and flowers every year. The small but exquisitely beautiful fruit hangs on the unique and handsome evergreen trees all winter. Fine plants, to bear at once, 50 cents each.

OXALIS, ORTGISI.
Upright Oxalis, or Star of Bethlehem.—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day in the year, and a fine pot plant with its starry leaves and stellate flowers and can be depended upon for good color. It grows as freely as a Geranium in any situation. It is a shrubby plant, like a Geranium or Fuchsia without buds, in which respect it differs from other Oxalis. It is more easily propagated to eighteen inches in height, branching freely, and loaded with star-like flowers of light, apple green, delicate and graceful, in the flowerpot as well as in the garden. It is a most delicious and lasting cut flower, a very strong grower, and makes an excellent and agreeable pot plant. The plant flowers freely in the fall; it is as much a star plant in the Fall as in the Spring. It is a beautiful and agreeable pot plant, and is surprising to see what attention it will attract. 50 cents per dozen; $3.00 per hundred.

PHRYNIUM VARIATEGATUM.

The Most Ornamental Plant Imaginable.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new, ornamental foliage plant. Its habit of growth is almost precisely like the Cannas, and it grows from a tuber which may be wintered dry — like a Gladiolus, if desired, or it may be kept growing the rest of the year as a pot plant. The Canna-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of o long lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, the variegations being extremely diversified; indeed, in our beds of these plants it is almost impossible to find two leaves exactly alike. In some leaves the whole area is pure white or rich cream color, in others only one-third or one-half; in others again it is reduced to a few stripes of faint lines — and all these variegations in one plant. It is very free growing and one of the most ornamental plants imaginable, either for pot culture or for bedding out. It is a grand plant for border Cannas beds with, standing the full force of the sun's rays; indeed, the firmer the sunshine the more perfect are the variegations of the leaves. The variegations grow constantly better and new variegated shoots larger and larger. It is managed with the most perfect ease and is absolutely sure to please all who grow it. 50 cents per dozen; $3.00 per hundred.

Clusters of twenty to thirty flat, white florets make up the raceme, and these clusters are set close along the drooping stems. Perfectly hardy and easily becomes about eighteen inches high.

New Crimson Spirea, Anthony Waterer.—This beautiful, new, crimson-flowered Spirea was introduced last year for the first time and receives its name from Mr. Goldring, of the famous Kew Gardens, said: "It is one of those exceptional novelties that occur only at rare intervals, adding in a conspicuous way to the rich and varied flora of our gardens. It outshines all the Spireas in brilliancy of color—a bright crimson. It is a rare gem." It makes a low, compact bush fifteen to eighteen inches high, and is covered nearly the whole growing season with large umbels of deep crimson flowers, which measure nearly a foot across. When scarcely three inches high it begins to bloom and thereafter is seldom out of flower. As a pot plant for growing in the open ground, nothing can equal it. Perfectly hardy, it is unquestionably one of the real meritorious plants that we cannot have too many of. We offer strong plants. 75 cents per dozen.

It is certain to become popular with flower lovers everywhere, owing to the high decorative value of plant and flower. It is a sturdy, upright grower, and is extremely floriferous, plants from small pots blooming profusely and continuing to do so throughout the season until they reach a height and width of three feet.
